Dear Hiring Manager,

I am writing to express my strong interest in the **Manager Product Designer** within your software product organization. With over 14 years of specialized experience in UX design, research, and leadership across SaaS, FinTech, and consumer platforms, I am excited about the opportunity to drive forward your company's vision for exceptional user experiences.

Throughout my career, I have successfully led multidisciplinary teams, managed end-to-end UX strategies, and built scalable design systems delivering measurable business impacts. My current role as Manager Product Designer at Credgenics involved scaling UX teams, integrating AI-driven design solutions, and collaborating with stakeholders to achieve a 15–20 percent increase in market growth. I am adept at translating complex product requirements into intuitive, data-driven experiences — consistently increasing engagement and feature adoption.

I am passionate about leveraging behavioral research, design thinking, and emerging AI tools to shape products that delight users and support ambitious business goals. Your company's innovative focus aligns perfectly with my approach to combining hands-on design practice with strategic vision.

I would welcome the chance to contribute my expertise in UX leadership, team mentoring, and advanced product design to your organization as Head of UX. Thank you for your consideration, and I look forward to discussing how my background and approach can add value to your team.

Sincerely,

Rakshit Walia
